# PureWater Cooler

Enjoy an endless supply of pure **healthy drinking** water with our integrated **9-stage filtration system**.

This revolutionary process removes harmful contaminants and chemicals from your drinking water, whilst releasing important natural minerals.

## The 9-stage filtration system

### Ceramic Filter

Can effectively remove rust, dirt & sediment particles of 0.2 micron and larger. Stops the propagation of bacteria eg: cryptosporidium & giardia.

### Activated Carbon

Removes unpleasant odours & tastes. Creates fresh clean purified water.

### Volcanic Rock & Mineral Stones

Restores natural trace minerals required by the body such as zinc, lithium, iodine, selenium, etc.
